This symposium is held as a dialogue with citizens and the science and technology research community, under the strategic research project entitled "Project on Sustainability Transformation beyond 2015", which is being implemented with support from the Environment Research and Technology Development Fund (ERTDF), Ministry of the Environment, Japan.

The 2030 Agenda for Sustainable Development:

# Transforming Japan and the World

The UN Sustainable Development Summit in New York in September 2015 adopted "Transforming Our World: The 2030 Agenda for Sustainable Development." This symposium in Tokyo will highlight and sum up the research outcomes of the POST2015 project, and discuss what transformation is needed in realizing a sustainable society.
